BAKERLUX SHOP.Pro™ MASTER

Convection oven

Convection oven, ideal for baking breakfast and snack products, in particular pastry and frozen bakery ones. Humidity setting, 2 programmable fan speeds and 304 stainless steel cooking chamber. The 7" touch digital panel allows the storage of the cooking programs together with their image and name. Automatic management of the cooking processes (CHEFUNOX) to achieve perfect cooking results even without qualified staff. Ready to be connected to the Internet and use the datadrivencooking.com portal.

Unox Intelligent Performance

 **ADAPTIVE.Cooking™:**
automatically regulates the cooking parameters to ensure repeatable results

 **SMART.Preheating:**
automatically sets the preheating temperature and duration

 **AUTO.Soft:**
manages the heat rise to make it more delicate

Unox Intensive Cooking

 **DRY.Plus:**
rapidly extracts humidity from the cooking chamber

 **STEAM.Plus:**
creates instant humidity

 **AIR.Plus:**
multiple fans with reverse gear and 2 speed settings

Data Driven Cooking

Check and monitor in real-time the operating conditions of your ovens, create and share new recipes. Artificial intelligence transforms consumption data into useful information and allows you to increase daily profits

Manual cooking

—— Temperature: 30 °C – 260 °C

—— Up to 9 cooking steps

—— Humidity set by 20%

Programs

—— 384 Programs

—— CHEFUNOX: choose something to cook from the library and the oven will automatically set all the parameters

—— MULTI.TIME: manages up to 10 cooking processes at the same time

—— READY.BAKE: ready to use settings with infinite time for a quick start

Technical features

—— Baking chamber made of high-resistance AISI 304 stainless steel with rounded edges

—— Double glass

—— Baking chamber lighting through LED lights embedded in the door

—— Baking chamber with L-shaped rack rails (only for X*FR-10EU-* and X*FR-06EU-* models)

—— 2-speed fan system and high-performance circular heating elements

—— Wi-Fi / USB data: download/upload HACCP data

—— Wi-Fi / USB data: download/upload programs

BAKERLUX SHOP.Pro™ LED

Convection oven

Convection oven with humidity and 2 programmable fan speeds. Easy-to-use oven, ideal for baking breakfast and snack products, in particular pastry and frozen bakery ones. The digital panel allows the storage of 99 programs with 3 cooking steps plus preheating, 12 of which with immediate access. Rounded stainless steel chamber to facilitate cleaning and ensure maximum hygiene.

Unox Intensive Cooking

DRY.Plus:

rapidly extracts humidity from the cooking chamber

STEAM.Plus:

creates instant humidity starting from 48 °C

AIR.Plus:

multiple fans with reverse gear and 2 speed settings

Manual cooking

—— Temperature: 30 °C – 260 °C

—— Up to 3 cooking steps

—— Humidity set by 20%

Programs

—— 99 Programs

Technical features

—— Baking chamber made of high-resistance AISI 304 stainless steel with rounded edges

—— Double glass

—— Baking chamber lighting through LED lights embedded in the door

—— Baking chamber with L-shaped rack rails (only for X*FR-10EU-* and X*FR-06EU-* models)

—— 2-speed fan system and high-performance circular heating elements

BAKERLUX SHOP.Pro™ GO

Convection oven

Programmable easy-to-use convection oven, ideal for baking breakfast and snack products, in particular pastry and frozen bakery ones.

The digital panel allows the storage of 99 programs with 3 cooking steps plus preheating, 12 of which with immediate access. Rounded stainless steel chamber to facilitate cleaning and ensure maximum hygiene.

Unox Intensive Cooking

DRY.Plus:

rapidly extracts humidity from the cooking chamber

AIR.Plus:

multiple fans with reverse gear and 2 speed settings

Manual cooking

—— Temperature: 30 °C – 260 °C

—— Up to 3 cooking steps

Programs

—— 99 Programs

Technical features

—— Baking chamber made of high-resistance AISI 304 stainless steel with rounded edges

—— Baking chamber with L-shaped rack rails (only for X*FR-10EU-* and X*FT-06EU-* models)

—— Double glass

—— Baking chamber lighting through LED lights embedded in the door

30 boxes (unit cost)	DB1044	103,00 €

Data Driven Cooking: productivity 4.0

DATA DRIVEN COOKING

Data will be always accessible by smartphone or PC. Data Driven Cooking controls and monitors oven operations in real time, highlighting waste and suggesting usage improvements to reduce consumption. It allows to create and share recipes from one oven to another even remotely.

Create, understand, improve.

Taking care of our planet is Plan A

More than 30 ENERGY STAR®-certified ovens.

Why are Unox ovens so efficient?

Thermal insulation

Using the best insulation materials makes it possible to minimize heat loss from the cooking chamber to the outside. The best cooking performance in every situation.

Motor efficiency

The motors in our ENERGY STAR® ovens are designed to heat up as little as possible during each cooking process to cut down on energy waste.

Oven intelligence

Lower water and electricity consumption with every cooking process with an intuitive digital interface and smart technology. Cook efficiently and minimize your environmental impact.

Energy efficiency

The estimate includes only direct emissions produced by the oven. Indirect emissions can be reduced to zero by choosing to purchase energy from renewable sources.

Estimate based on daily use of the oven (300 days/year):

6 light loads of roast chickens (loaded at 20%)

1 full load of roast potatoes

3 full loads cooking with steam

2 hours in an empty oven at 180 °C

Estimated assuming the following weekly washing programs (42 weeks/year):

1 long wash

1 medium wash
